

INLINE® OUTDOOR INSTALLATION CABLE CAT.7A PIMF 4X2X0.58 AWG23, 1200MHZ, PE, BLACK

The installation cable will be delivered in a drum box for an easy take of the required length of data cable. The packaging consists of a plastic roller so that the data cable can be rolled up. This role is fixed in a reinforced cardboard carton, which allows a simple retain of cable. Advantages of the drum-box are as follow:

- Cost reduction because of easy handling on site without additional tools for rolling up the cable

VIEW:

*NOTE:

- 1. BLUE/WHITE 2. ORANGE/WHITE
- 3. BROWN/WHITE 4. GREEN/WHITE

- Handy an stackable packaging
- Lightweight (can be send with standard parcel services)
- Prevention of pollution and damage because of the packaging cardboard
- Reduces average costs for small pieces of cable

Technical specifications

- Cable for installation
- Cat 7a installation cable with up to 1200 MHz
- Architecture: 4x2xAWG23/1 PIMF
- Suitable for up to 10 GBit
- Full copper wires
- Impedance: 100Ohm DC resistance: max 87 Ohm/Km
- LDPE Cable sheath, UV resistant, making it suitable for outdoor use
- Sheath color: black
- Compliant with ISO/IEC 11801, IEC 61156-5
- Construction: pairs in metal foil
- Overall braid shielding
- Cable diameter approx. 8.2mm
- Installation temperature 0 - 50°C, operating temperature -20 - 60°C
- Printed rest-meters on the cable
