# LogiSmart Plug Switch with Metering

## Manage your home electronics and monitor their power consumtion anytime/anywhere – over Wi-Fi, 3G or 4G

**The LogiSmart Plug Switch enables you to turn electronic devices on or off from your smart phone anywhere. The LogiSmart Plug Switch uses your existing home Wi-Fi network to provide wireless intelligent control over all of their home electronics like TVs, lamps, stereos, heaters, fans and more. The LogiSmart Plug Switch also operates over mobile Internet, which means you can control home devices from anywhere you have an Internet, 3G or 4G connection.**

### Works with Android and iOS smart devices
The LogiSmart Plug Switch works with the free App to control of your home electronics wirelessly. Simply download the free App from the Google Play store or the Apple App store to your smartphone or tablet. Next, plug the Smart Plug Switch into an outlet at your home and plug any device into the switch. Connect the Smart Plug Switch to your home Wi-Fi network and follow the on screen instructions to complete the installation. You'll be able to turn that device on or off and set schedules by using your smartphone or tablet (running Android 4.0 and later or iOS 5 and higher).

### Smart Control, & Check from smart devices
Check the status easily while you are out and switch them on or off anywhere, anytime. No need to worry about forgetting to turn something off when you are away.

### Scheduling, & Saving Power
Program your home electronic devices by provided program to make your home more energy efficient.
